

## WATER HEATER TANK

- For electric and gas water heaters (40, 60 gallons or even larger tanks)
- Clean and washable finish

Save up to 18%  
on your tank  
heat loss

AYR-FOIL™ A2V

AYR-FOIL™ 2" spacing strip

### VERY IMPORTANT:

To prevent fire hazards, do not cover the combustion chamber part of a gas heater (pilot light area).

### INSTALLATION METHOD:

- ➊ Install an **AYR-FOIL™** spacer strip at every 16" (approximately) to create an air space. Let the strip at the top of the tank go 3/8" over the edge and install 2 other strips flat on the top.
- ➋ Wrap the tank with **AYR-FOIL™** A2V white, side facing out, as shown on the drawing and seal the seams with **AYR-FOIL™** white vinyl tape.
